## SIMPLE INSTALLATION

### No Tools required

Simply measure your window, trim blind to size, then stick the blind to your window frame or glass using the inbuilt double-sided tape.

**Pro tip:** In order to avoid any potential paint peeling please use masking or painters tape on your timber frame before installation.

| BLOCKOUT                                                                            |                                                                                     |                                                                                     |
